JUGHEAD NO. 160 SEPT. MEMBERSHIP — TWENTY CENTS

FIRST PRIZE — $5.00

REPORTER
BERT HALL
1214½ E. Scotts Avenue
Stockton. Calif.

Dear Archie,

I'm an outdoorsman and the most exciting experience I had happened when I went fishing with a friend. He almost always tried for strippers. But since they have to be at least 16 inches long, I thought I would never catch one I would be able to keep. But then while I was sitting on the bank, I felt a little tug . . . I waited, but nothing happened. Then all of a sudden my pole pulled away so hard I though I would lose it. I grabbed my reel and started reeling it in. The fish was putting up a great fight but finally, I had it! I could see it was the biggest I had ever seen. Yes sir! it had to be over 16 inches.

When I showed it to my friend he was really surprised. And ever since then when we go fishing he tries to take over my "Championship" for catching the biggest fish.

SECOND PRIZE — $3.00

REPORTER
TOM KAPSIDELIS
11802 Goodloe Road
Silver Spring, Md.

Dear Archie,

Last Sunday we went to the Washington Aquarium which is in the basement of the Commerce Building. There were lots of different kinds of fish. Everything from tropical minnows to man-eating pirahnas! One display was two aquatic turtles trying to climb up a log. It also had sharks and some fish that were camoflauged with the terrain and you had to look and find them. It also had many other fish which are too many to name. If you're ever by or around this area first stop and see me & then the Washington, D.C. Aquarium.

THIRD PRIZE — $2.00

REPORTER
DEBORAH LOOS
10201 East 55th Street
Raytown, Mo. 64133

Dear Archie,

I'd like to tell you about the trip my family and I took to Texas and Mexico. First we arrived by train at San Antonio, Texas. Our friend, who lives in Texas, met us at the train station. Then he took us to see the Alamo. We did not go in, but from the outside it looked very old and with a lot of history behind it. We stayed at a motel during the week. On Sunday we took a ride to Mexico and saw a large Cathedral. We took pictures of it to remember what it looked like. We also went and saw souvenir shops. With my money I had saved up I bought a Mexican doll. We even saw two boys in a carriage with horses at the beginning to pull them. It

was really amazing After the day was almost over, we went to eat at a Mexican restaurant Men were playing guitars for the people and us. When they had finished we gave them money We left to come home in time for the July 4th celebration. What a trip it was.

FOURTH PRIZE — $1.00

REPORTER
NANCY STAPF
639 Beverly Drive
Magnolia, N.J. 08049

Dear Archie,

Last summer I went to the seashore with my family. Boy, did we have a ball! Every morning I was on the beach by 8.00 A.M. and didn't leave until I was starving.

On the fourth day of my stay, a frightening but funny thing happened to me. It was like this: It was about 1:00 in the afternoon. As usual, I was on the beach. I thought I saw a shark and I told the lifeguard about my observation. He made everyone get out of the water a few seconds later. I saw it again when it jumped up about three feet above the water. Everyone was looking at me. Boy! Was my face red when I realized it was only a dolphin!

FIFTH PRIZE — $1.00

REPORTER
JANE WEATHERFORD
206 E. 50th Street
Savannah, Ga. 31405

Dear Archie,

Wow! The strangest thing happened! It snowed. This may not be strange to you but in Savannah, Georgia it sure is! The last time it snowed was in 1898! And then it only snowed 2 inches. Today it snowed 3 to 7 inches! You should have seen everything—the cars, bushes, trees, and even the clothes lines were covered with beautiful, white fluffy, glorious snow!

Everyone was having snow ball fights and building snowmen. It didn't last long, though. At about 12:00 the snow melted and went away. Oh well, maybe next winter!

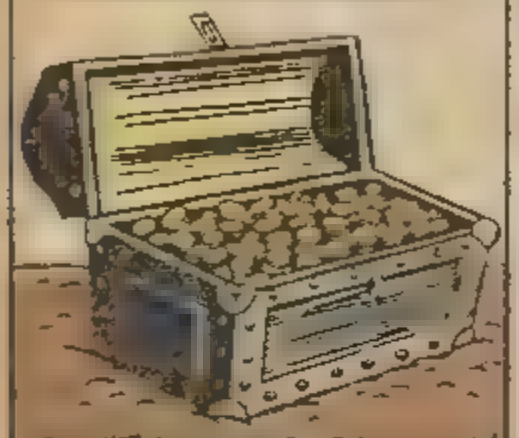
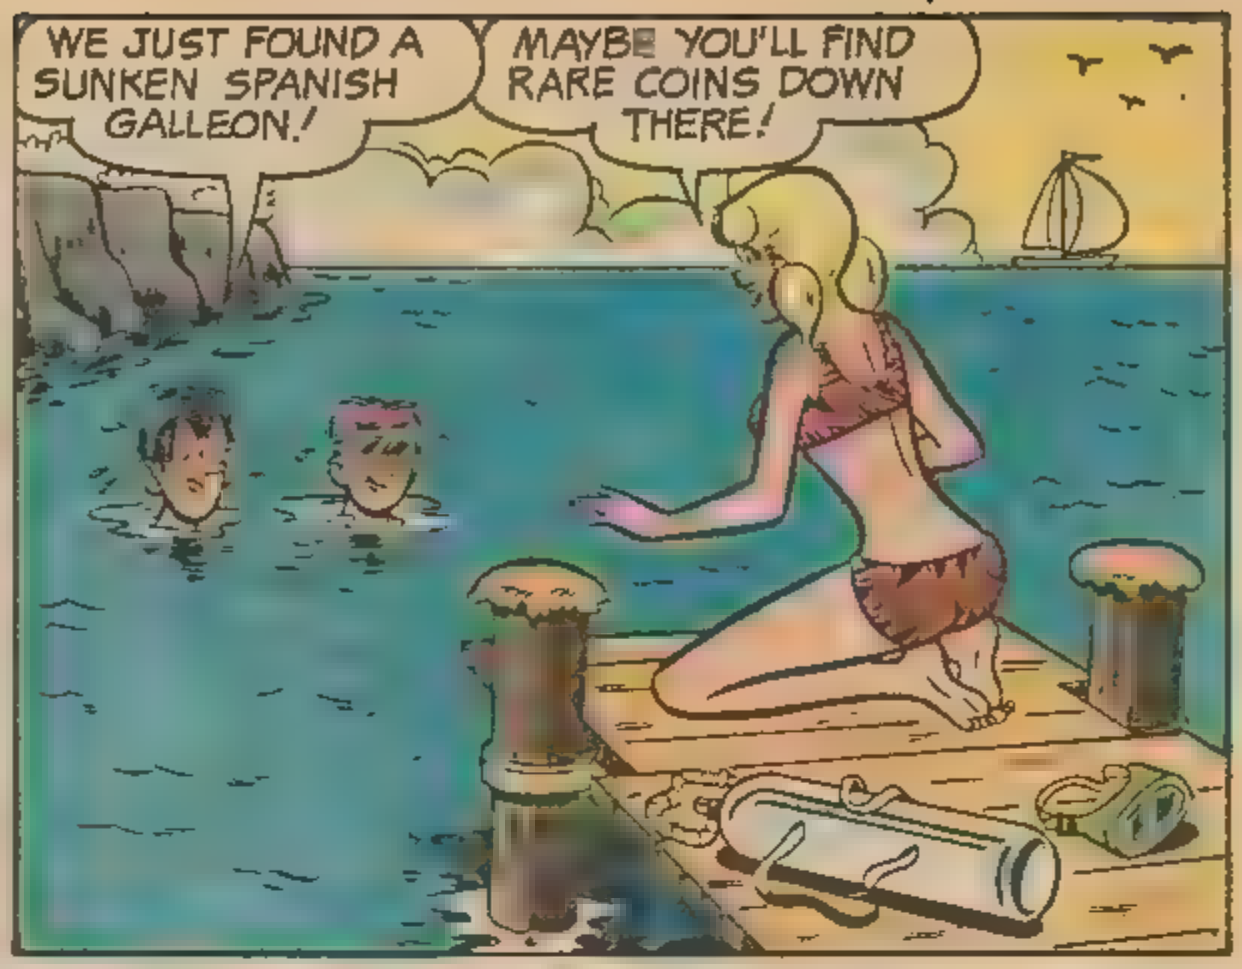
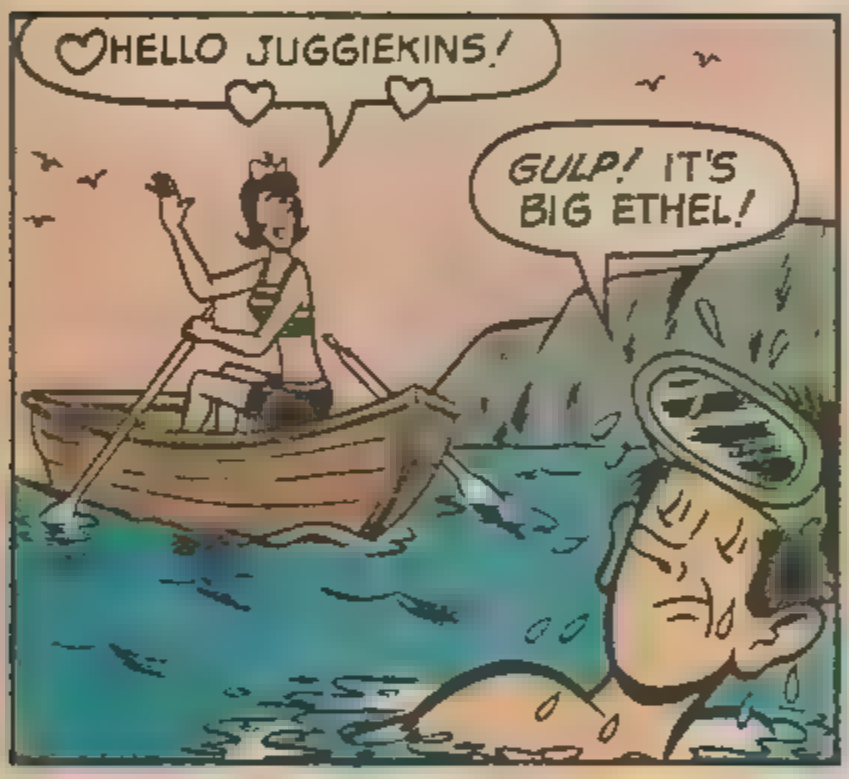
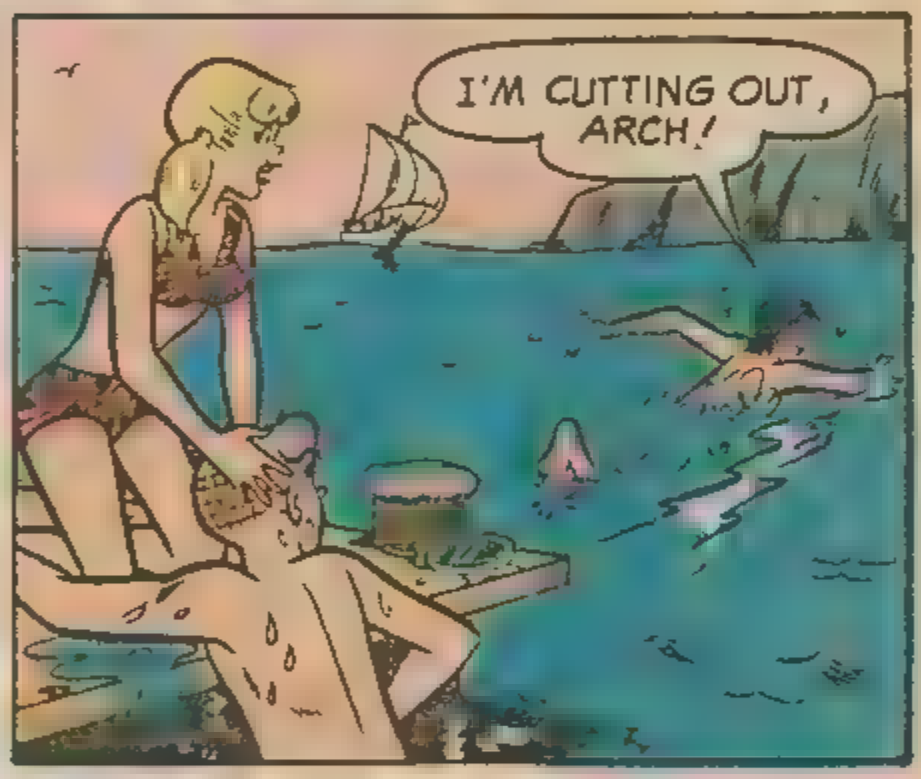
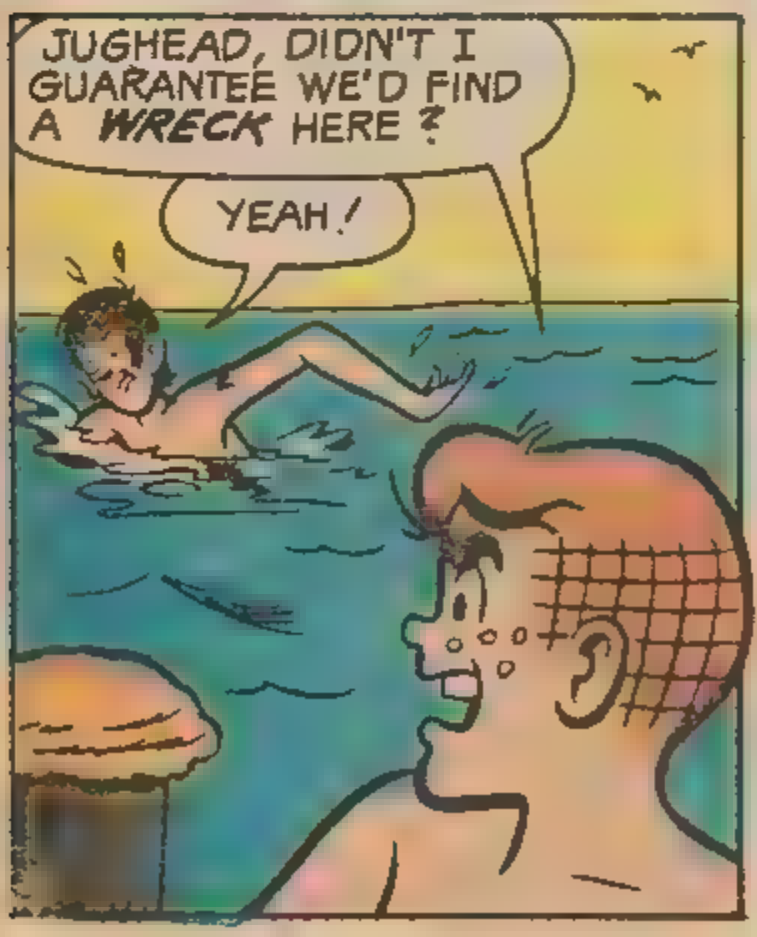
TREASURE DISPLEASURE

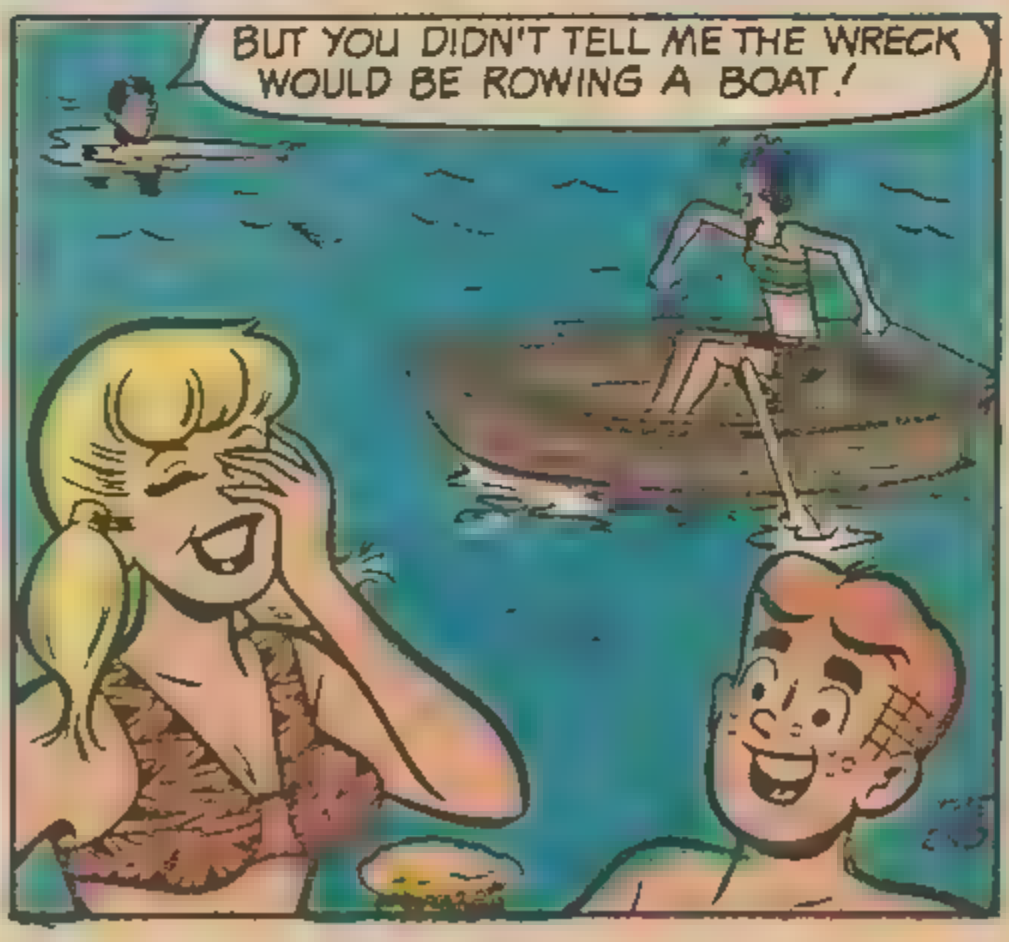












This balloon-like satellite is one of many designed to measure the thickness of air above the earth. It went up about 1,490 miles and orbited around the earth. Explorer XIX sent back information by radio signal which helped scientists understand what "thin" air could do to a spacecraft at different heights. *Energy for this radio came from a rechargeable storage battery inside the satellite and a row of solar or sun-powered cells on the outside.*

This is the Cheerios Kid, whose energy comes from Cheerios! Like satellites, and like you, he needs go-power every day. A breakfast with Cheerios and milk is packed with muscle-building protein and energy for go-power. Get yourself Go. Get Cheerios!
